

# Acceptable Use Policy for Technology

2023-2024

## INTRODUCTION

In its program of Christian education, Divine Peace Lutheran School provides and encourages uses of Chrome books and other technology tools through which students have access to an abundance of resources available through the internet. The use of technology is a privilege. These tools facilitate student learning, assist in conducting research, and enable communication and collaboration with others. Students are expected to act in a responsible, Christian manner when using these tools.

Divine Peace reserves the right to monitor students' online activities and to access, review, restrict, copy, and/or delete any electronic communication or files and to disclose them to others as deemed necessary. Students should have no expectation of privacy in their use of Chrome books, other devices, and/or the internet at Divine Peace.
